Title: **DYNAMIC COMPUTATION OF A LINE SEGMENT ARRANGEMENT USING
FINITE PRECISION ARITHMETIC**

Honorable Assistant Commissioner of Patents and Trademarks
Washington, D.C. 20231

Sir:

REQUEST FOR APPROVAL OF DRAWING CORRECTIONS

As indicated in the Second Preliminary Amendment submitted herewith, approval of the following changes is requested:

IN THE DRAWINGS:

In Figure 15,

please rewrite reference numeral "310" as reference numeral

-- 400 --;

please rewrite reference numeral "320" as reference numeral

-- 410 --;

please rewrite reference numeral "330" as reference numeral

-- 420 --;

please rewrite reference numeral "334" as reference numeral
-- 424 --;
please rewrite reference numeral "336" as reference numeral
-- 426 --; and
please rewrite reference numeral "338" as reference numeral
-- 428 --;
as shown in red on the enclosed sketch of FIG. 15.

In Figure 16,
please rewrite reference numeral "320" as reference numeral
-- 410 --;
please rewrite reference numeral "324" as reference numeral
-- 414 --; and
please rewrite reference numeral "328" as reference numeral
-- 418 --;
as shown in red on the enclosed sketch of FIG. 16.

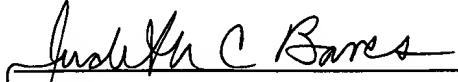

REMARKS

Consideration of the above-entitled application is respectfully requested in view of this Request for Approval of Drawing Corrections, the requested changes noted above, and the following remarks. Drawing corrections in Figures 15 and 16 have been proposed.

It is proposed herein to correct Figures 15 and 16 as shown in red on the enclosed sketch. In Figure 15, all of the reference numerals are proposed to be changed because at least two of the reference numerals in FIG. 15 are being used in other figures to denote different elements. Changing these reference numerals to numerals that are not otherwise being used will conform this application to the general rules for drawings as specified in 37 C.F.R. §1.84(p)(4). Since FIG. 16 makes reference to an element in FIG. 15, renumbering is also required with respect to reference numerals in FIG. 16. While not every original reference numeral in these figures was incorrectly used, all reference numerals have been changed for more consistent identification of the elements as all belonging to the function now labeled as function 400.

It is respectfully requested that approval of the proposed drawing corrections be indicated in the next Office Action.

Respectfully submitted,

A handwritten signature in cursive script, reading "Judith C. Bares", is written over a horizontal line.
